

> TOSHIBA EASYGUARD

Toshiba EasyGuard is a unique feature set that delivers vital data security, system protection, manageability and connectivity for business users on the go. Simply choose the features you need and finding the right laptop becomes easy.

> SECURITY

When you're working on the go, the security of your laptop is a primary concern. With Toshiba EasyGuard Security, you can ensure your laptop and data are safe – even if it falls into the wrong hands or you forget the password. The biometric finger-print reader delivers secure access, while advanced encryption and digital signature technologies ensure the integrity and privacy of your content.

> PROTECTION

Toshiba EasyGuard Protection means your laptop can handle the knocks of everyday life while protecting your data. Toshiba Tecra and Portégé laptops are fully HALT (Highly Accelerated Lifecycle Test) tested and come complete with a spill-resistant keyboard*. So, whether you accidentally knock your laptop off your desk, or want to more easily diagnose system problems, Toshiba EasyGuard features ensure your data is protected.

> CONNECTIVITY

Wherever you need to connect, Toshiba EasyGuard Connectivity gets you up and running quickly. With Toshiba ConfigFree™, you'll make network connections fast, while the Diversity Antenna automatically adjusts to deliver optimal connectivity. With these and many more features, you'll have everything you need to find a signal and stay connected.

> MANAGEABILITY

The advanced manageability features of Toshiba EasyGuard help you achieve greater productivity and seamless working on the move. Toshiba Management Console frees IT managers to install updates and maintain laptops remotely, minimising downtime. While Toshiba Power Saver makes it easy to edit profiles to maximise both battery life and performance. And, with Active Management Technology from Intel®, IT departments can better remotely diagnose, heal, and protect networked computing assets.
