Carefree Mobile Computing

➤ Toshiba EasyGuard

Toshiba EasyGuard brings carefree mobile computing to your business life with unique features designed to address the mobility issues businesses face.

Toshiba EasyGuard is grouped into four key areas:

Security

Toshiba EasyGuard makes security simple, with software and hardware features that work together, including:

- Biometric sign-on to deliver secure access to password-protected files and applications
- Advanced encryption and digital signature technologies to ensure optimal content integrity and privacy
- XD-Bit (Execute Disable Bit) that automatically prevents attacks by malicious worms and viruses

Protection

Safeguard your notebook from everyday hazards with Toshiba EasyGuard's innovative shock protection and durability features:

- Free-fall detection that 'unloads' the head from harddisks – greatly reducing data damage
- Spill-resistant keyboard giving you time to save work in the event of a liquid spill
- Magnesium alloy casework means no compromise between lightness and durability
- Industry-beating warranties and service packages

Connectivity

Save time and energy finding a connection. With Toshiba EasyGuard, the signal finds you – thanks to a unique feature set that includes:

- Toshiba ConfigFree™ giving you wireless 'radar' – a visual display of available connections. Its Connectivity Doctor can even analyse your network connection and switch to a different one if necessary
- Diversity Antenna – twin built-in antennae optimise your Wi-Fi™ signal reception
- Voice-over-IP ready integrated microphone and webcam for high quality voice calls and video

Manageability

Working on the go can be a real balancing act, so we've developed Toshiba EasyGuard to help you. With a range of manageability features you can achieve greater productivity and seamless working.

Features include:

- Toshiba Management Console, giving IT managers the ability to install updates and maintain notebooks remotely, minimising downtime
- Toshiba Power-Saver – sophisticated yet simple editable profiles to maximise battery and performance

Toshiba EasyGuard is available on selected Toshiba Tecra, Portégé and Satellite Pro models. Simply choose the features you need – and finding the right notebook becomes easy.

And with Intel® Centrino® Duo processor technology you enable your mobile workforce to interact better and more efficiently with the secure, flexible, and expanded options in wireless connectivity.
